Valentin Bruneel

Developer

I have recently completed my studies in development and am currently in pursuit of a career opportunity.

Independent, passionate, and attentive to others, I enjoy working as part of a team.

Skills

Good security practices to guard against SQL injections, XSS attacks, and other threats.

Developing a website, with or without a CMS (HTML, CSS, frameworks).

Designing a multi-layered application.

Project management with Agile and Merise.

Setting up and administering a database.

Creating a mockup for an application (wireframe, zoning...).

Degrees
